Welcome to edition 3.0 of the  
Off>Road>Action catalog!

## 100% trials is what we are all about...

Our mission is to be the **Worldwide leader in the wholesale distribution of aftermarket parts, accessories and apparel for the trials industry**. Located in Belgium, in the centre of Europe, we aim to supply every product in our range through a network of professional dealers. Our fast and friendly service makes us the ideal source for any trials product.

Because **we are passionate about trials**, you will find us at the major events across the globe. Our sponsored riders put our products to the test in training and competition, and based on their advice and input we make improvements and release new products on a regular basis. Make sure to visit our website frequently to see what is new in our product range.

Off>Road>Action is a trade distributor only, we do not supply direct to the public. Please use the dealer locator on our website to find your nearest dealer.

**Please do not hesitate to contact us if you need any information or have any questions about our products.**

See you at the races!

# JITSIE T1 RADIKAL

## THE STANDARD FOR TRIALS APPAREL!

The Jitsie T1 Radikal line is in a class of its own when it comes to design and style! Its flashy loud alllover design gives it that unique look which makes you stand out from the crowd!

### JITSIE T1 JERSEY

The Jitsie T1 jersey is the favorite jersey from the modern trials rider! The combination of top of the line polyester fabrics and the newly shaped underarm vents provide just the right amount of airflow in either hot or cold conditions. The jersey feels light and soft on the skin yet provides the durability to make it through the season. The precise V-shaped knit neckband ensures the jersey fits nicely around the neck.

#### Features of the Jitsie T1 jersey:

- » Main material is 100% top of the line polyester
- » V-shaped rib knit neckband
- » Bold sublimated graphics for fade free washing
- » New snag resistant micro-cuffs
- » Lycra® added to collar and cuffs to retain shape
- » Underarm mesh vents for improved airflow

APPAREL!

## JITSIE T1 PANT

The Jitsie T1 pant is the most technically advanced trials pant that combines a tight trials specific fit with comfort, protection and durability. The dual waist adjustment belt system ensures a comfortable close fit around the waist while preventing the rear of the pant to slip down during riding. Triple stitching in high stress areas make sure the Jitsie T1 pant will last in even the most extreme conditions. The inside liner makes the pant really comfortable to wear as it prevents seams and stitching to rub on your legs.

### Features of the Jitsie T1 pant:

- » Dual waist system
- » Hook to hang up pants
- » Inside silicon lines on pant collar to keep jersey tucked in
- » 3mm thick perforated foam in knee panels for comfort
- » Sublimated side spandex panels
- » Extra strong front zipper and push buttons
- » Small side pocket for keys or cash
- » Extra wide ballistic nylon panels to protect against exhaust pipe
- » Knee TPR's for added protection
- » Preformed pant improves fit while riding and actively adjust to body movement
- » Lightweight spandex panels on rear calf for extra mobility
- » 2x2 spandex panels above knees improve pant flexibility
- » Triple stitching in most stressed areas for extra resistance against wear

# JITSIE T1 EDDY

## A TRIBUTE TO CLASS AND FUNCTION

The Jitsie T1 Eddy apparel is a tribute to one of the most iconic riders in trials history as it's based on Eddy Lejeune's World championship winning gear back in '82, '83 and '84! The former factory Honda rider was a true champion and his gear was so incredibly cool in the day that we wanted to bring back the magic...

# JITSIE T1 MOTION JACKET

THE ULTIMATE  
LIGHTWEIGHT  
TRIALS JACKET

## JITSIE T1 MOTION JACKET

The Jitsie T1 Motion jacket is the ultimate lightweight jacket for trials. It utilizes a soft and flexible outer shell that's both water-repellent and breathable for optimal riding comfort in even the worst weather conditions. The super light quality zippers are an absolute must for any trials rider to easily reach and put away the scorecard. With plenty of storage pockets there is no problem to take all the essentials with you while riding. To increase ventilation throughout the jacket, we installed multiple air vents in strategic spot to ensure maximum coolness. Of course, with the zip-off sleeves that can be easily stored in the back pockets, the choice is all yours!

### Features of the Motion jacket:

- » Water-repellant and breathable outer shell
- » Fleece lined collar for extra comfort
- » Multiple vents prevent overheating
- » Zip-off sleeves that can be easily stored in the rear side pocket
- » Double neck closure to avoid rubbing on Adams apple

# JITSIE T1 HOPPER

COOL LIGHTWEIGHT  
ALL WEATHER GEAR

## JITSIE T1 HOPPER JACKET

The Jitsie T1 Hopper jacket is a cool waterproof lightweight jacket that keeps you nice and dry in any type of weather. It features flexible lycra wrist and collar bindings, multiple pockets, underarm venting and reflective piping. The distinctive Jitsie logos on chest and back give it that specific trials look the Jitsie brand is known for.

### Features of the Hopper jacket:

- » Lightweight waterproof fabric
- » Storage pockets on chest and side
- » High collar to keep rain out
- » Lycra collar bindings for a comfortable tight fit

Part# JI11T1-4535  
Size S-XXL

## JITSIE T1 HOPPER PANT

The Jitsie T1 Hopper pant is the ultimate trials rain pant. Easy to put on quickly when it starts raining thanks to its zipped ankles. Absolute must have item in your gearbag!

### Features of the Hopper pant:

# JITSIE T1 RADIKAL HELMET

The Jitsie T1 Radikal helmet takes design and riding comfort to the next level! During its development we spent more than a year testing different interior liners to make sure sure it felt 110% comfortable when you ride your bike. As the sport of trials is evolving rapidly, we believe that our brand should do the same. Our designs are cutting edge while quality remains at the top of our checklist. Safety and comfort are absolute key strengths of the Jitsie T1 helmet. Try one and you'll feel the difference! The Jitsie T1 helmet offers superior performance and comfort as you would expect from any Jitsie product!

## Features of the Jitsie T1 helmet:

- » Lightweight polycarbonate shell
- » Multiple vents for optimized airflow
- » Anatomically shaped foam inner liner for perfect fit
- » Easy adjustable visor with four aluminum screws

- » Extra interior with every helmet

## JACK SHEPPARD

“ My goals for the future are to be World Champion and to promote the sport and increase the level of trials. ”

### RIDER PROFILE

Full name: Jack Sheppard  
2012 Bike: My dream is finally after eight years on a 125, a full size Jitsie Factory Beta 300 2012.

Nickname: Shep  
Hometown: Ipswich, Suffolk  
Height: 186cm  
Weight: 77kg  
Birthdate: 22/07/1993

Birthplace: Ipswich, Suffolk  
High school: Claydon High School. Left in 2009 to ride trials!

Favorite foods: Good old roast dinner!  
Foods I hate: Weird looking and tasting seafood!  
Favorite drinks: Red Bull  
Music: anything goes, just not too heavy

### CAREER HIGHLIGHTS

My highlight so far has got to be finishing the 2nd day in Japan 2011 to become 2011 World Youth Champion. The relief that I had done it was a feeling I just can't explain but is simply fantastic and one I would like to relive in a year or two.

### TRIALS BACKGROUND

#### When did you begin trials and how?

I began to ride trials when I was 6, my father introduced me to trials as when he was younger he used to ride. He took me to the local practice area, Raydon sand pit. This was on my Yamaha TY 80.

#### Who influenced you and how?

One of the riders who have influenced me the most is Dougie Lampkin because of his superior determination, commitment and domination to the sport when I was starting with trials. Now Toni Bou influences me a lot with my riding as he brings new techniques and continues to push the limits of the sport.

#### What are your strongest qualities as a trials rider?

I like to think my strongest qualities are riding in the wet conditions and keeping cool when the going gets tough.

#### What are your current and future goals in trials?

My goals for the future are to of course be World Champion and to promote the sport and increase the level of trials.

#### What are you doing to achieve these?

At the moment I am trying to get fully fit again so I can get back to the strict training on the bike and in the gym. I am hoping to be doing this in Spain where all the top riders are in the winter.

#### Describe your greatest trials experience to date.

This would be winning in Fort William in 2011 in front of my home crowd and lots of friends and family and also extending my lead in the world championship.

#### Describe your worst trials experience so far.

My worst experience so far is riding in the first French GP of 2011 after my hospital appointment just before the event had confirmed kienbocks disease and that continuing to ride could result in my wrist collapsing. This combined with the pain and sickness meant I did not enjoy riding at all.

#### Describe your favorite trials venue.

My favourite venue is the compact, but superb venue, Brimham Rocks where there are endless sections and different routes, with big steps, technical lines and steep bankings so there is just about everything you would want for trials.

#### What does it mean to you to be part of the team?

Being part of the Jitsie team this year has been great, the support Jan, Luc, James and Ivo have given me has been superb. They have kept me going all year with maximum effort to make my results possible. I look forward to working with them more in the future.

#### Any personal you want to say?

I would like to thank all my sponsors for helping me through this tough year and making my results possible. Also a big thanks to all in the eastern centre where I live and learnt to ride. They are always 100% behind me.

# LORIS GUBIAN

“ I think jitsie is a cool brand that thanks to their focus is really making a difference in trials. Together we are always trying to improve the products so that all trials riders can benefit from this. ”

## What are your current and future goals in trials?

Break into the top five of the world in 2012, continue to be at the top in the French championship.  
In the longer run, I want to compete to be on the podium in the World championship.

## What are you doing to achieve these?

I train every day, both on and off the bike. Also, I try to surround me with professional people and always be positive.

## Describe your greatest trials experience to date.

Every title I have won so far has always been a great feeling! The battle to get into the top five of the world is also a great motivation...

## Describe your worst trials experience so far.

Isola 2000 in 2011 where I rode pretty bad the entire weekend and lost my sixth position in the final standings of the World championship!

## Describe your favorite trials venue.

I always love to go to Japan and ride at Motegi. The organization and atmosphere there is incredible! Of course, I love to ride in front of my home crowd!

## What does it mean to you to be part of the team?

I like the team spirit the people at jitsie have, it feels really great how they take care of me and how they always try to improve their products!

Weight: 71kg  
Birthdate: 04/01/1989

Birthplace: Croix Rousse

Favorite foods: Pasta  
Foods I hate: Mushrooms, onions  
Favorite drinks: Sparkling water  
Music: All music from the Rocky movies

## CAREER HIGHLIGHTS

2009 European champion  
2008 World Junior champion  
2009-2010-2011 French champion trials

## TRIALS BACKGROUND

### When did you begin trials and how?

I picked up the passion for trials from my father. He bought me a PW50 and that's how I got started...

### Who influenced you and how?

My father was my biggest influence because he got me introduced to trials and I absolutely loved it from the beginning.

### What are your strongest qualities as a trials rider?

I work very hard to achieve my goals and determined to get to the absolute top of trials. I never give up!

## CAREER HIGHLIGHTS

Number 1.

## TRIALS BACKGROUND

**When did you begin trials and how?**

My first bike was an Italjet and I was two years old, all my family rode and I wanted to join them.

**Who influenced you and how?**

My Father was World Champion in 1975 and I grew up around bikes and Trials.

**What are your strongest qualities as a trials rider?**

I could win...

**What are your current and future goals in trials?**

My career has been very successful and I wouldn't change anything and I still enjoy riding the bike now as much as when I was younger.

**Describe your greatest trials experience to date.**

World Trials champion for the first time was the best moment, but I was never satisfied and always wanted more victories...

**Describe your worst trials experience so far.**

Losing the World Championship in 2004 after being champion for seven years was hard to take.

**Describe your favorite trials venue.**

My training areas around my home are perfect for all terrains.

**What does it mean to you to be part of the team?**

I have been friends with the guys behind the Jitsie brand for a long time and I knew that their passion for our sport would mean that Jitsie would be a professional quality company that I wanted to be a part of now and in the future.

**Any personal you want to say?**

Nobody hates losing more than me, at the peak of my career I hated even thinking about it. Winning was everything....

**TOMOYUKI  
OGAWA**

“ Trials is the most challenging motorcycling sport. Let's all work together to make it better known and appreciated! ”

## RIDER PROFILE

Full name: Tomoyuki Ogawa  
2012 Bike: Honda RTL MITANI Model 300

Nickname: GATTI  
Hometown: Mie, Japan  
Height: 178cm  
Weight: 71kg  
Birthdate: 04/10/1976

Birthplace: Mie, Japan  
High school: Mie Yokkaichi commercial

Favorite foods: Noodles  
Foods I hate: Fermented soybeans  
Favorite drinks: Calpis  
Music: Aerosmith

## CAREER HIGHLIGHTS

**Bicycle trials**  
1990 world champion

**Motorcycle trials**  
1991 Country B&A class all-Japan champion  
1992 International B class all-Japan champion  
2007 International A class all-Japan champion  
2010 International A class all-Japan champion

## TRIALS BACKGROUND

**When did you begin trials and how?**

I started to ride bicycle trials in 1985 and five years later, in 1990, I switched to motorcycle trials.

**Who influenced you and how?**

My father has always been a big support in my career. I also learned a lot from Takumi Narita, a great Japanese trials rider from just before my time.

**What are your strongest qualities as a trials rider?**

I like big steps and jumps... Takumi Narita was a great Japanese rider from who I learned a lot!

**What are your current and future goals in trials?**

My current goal is to be the all-Japan champion. I also want to promote the trials sport over the whole country with my schools and shows.

**Describe your greatest trials experience to date.**

All my titles in bicycle and motorcycle trials!

**Describe your worst trials experience so far.**

Missing out on the title in the Japanese championship a couple of times...

**Describe your favorite trials venue.**

That is definitely Motegi where the Japanese World round is organized each year.

**What does it mean to you to be part of the team?**

I joined the Jitsie team two years ago and it has been a great collaboration. I like the products and the people behind the brand are passionate about trials. It's great to be their number 1 rider in Japan!

Visit Gatti's website.

## The 2012 Sherco ST is newer than ever!

Sherco continues to be faithful to its ideal of progression and constant evolution. The release of the new 2012 ST trials models is the culmination of a cycle of innovation and renovation that was started three years ago with the introduction of a new frame. Last year the new engine was added and this year numerous innovations and technical updates were introduced to increase the performance and overall handling of the bike.

### New 2012 Sherco ST features

- » New Tech Front Suspension
- » New rear suspension design
- » New R16V Rear Shock
- » New muffler
- » New design fuel tank interior compartments
- » New filter box
- » New air filter
- » New carburetor position along with intake nozzle redesign
- » New externally mounted Hidria electronic ignition unit
- » New skidplate with new rubber buffers

Find your sherco  
dealer on

## The evolution continues!

A constant evolution of the bike, chassis and engine, always developed to support expert and hobby riders. This is the approach followed by Beta to improve the 2012 EVO model which builds further on the great success of the '11 range and allows the EVO to remain at the top of trials in the World.

Find your beta  
dealer on  
[betamotor.com](http://betamotor.com)

### New 2012 Beta Evo features

- » New clutch plates
- » Silencer revised internally
- » Temperature sensor now located at the bottom of the radiator for improved accuracy and precision
- » Revised gearbox cam with a different thickness for smoother gear engagement
- » New suspension settings
- » Light switch positioned next to radiator fan
- » Electrical system modified for a better layout and simplification of the cables
- » New color for the front fork tubes ensures an exclusive look
- » New color plastics and graphic kit to suit the Beta identity

## If trial is your passion...

The new TXT PRO 2012 introduces important new design features and components that will certainly please trials enthusiasts!

### New 2012 Gas Gas TXT PRO features

- » The air filter box features a deflector strip to prevent the entry of water.
- » New chain and rear sprocket protector.
- » New progressive rear shock absorber system transmits a higher sensitivity and traction to the entire bike.
- » New rear rim guarantees better air sealing and improves the overall image of the bike.
- » New headlight with led technology.
- » New white color Marzocchi front fork.
- » Improved front suspension settings increase the turning angle by 10°.

## TRP SHOCK ABSORBERS

The TRP trials shock absorbers are an established brand in the World of trials with their great line of high quality trials suspension products.

The main features of the TRP rear shock absorbers are:

- » Fully adjustable rebound
- » Progressive damping
- » Top quality cnc machined aluminium parts
- » Several spring options available to suit each rider's weight and ability

# PREPARE YOURSELF FOR THE RACES

[ - ]  
DIEBRECHT VAN BRIEL

“Keep in mind  
while you exercise  
to focus on balance  
and control...”

[ - ]  
JACK SHEPPARD

## TRAINING WITH DIEBRECHT VAN BRIEL

WORD OF THE COACH

Welcome to the training guide of the catalog. Through my experience as a full time personal coach and guiding the Jitsie riders with their daily training schedules, I have developed a general set of exercises that will help any trials rider to improve their core body strength.

**The intent of this workout is to increase your stability on the bike. The core is the most important part of your body to generate stability and strength.**

A strong and healthy body is a vital component for success. Adding a workout using your body's kinetics to your overall training schedule will improve your chances of victory!

## ▲ EXERCISE 1 LUNGE TO OPENING

Stand up straight with your feet at hip width and hold the natural curve in your back at all times. Hold your hands in front of you and take a big step forward without twisting your pelvis or crossing your front toes with your knee. Now move downwards to a 90 degree angle. Open the cross-sided arm as far as possible without twisting your pelvis. Move upwards again and step back. Repeat this exercise on the other side.

### REPEATS

3 sets - 10 repetitions

### FOCUS POINTS

- » Hold your natural curve.
- » While lunging, keep your front knee above your foot.
- » Bend your knee to a 90° angle.
- » Open your upperbody without twisting your pelvis.

## ▼ EXERCISE 2 MINISQUATS

Take a squat position with your arms extended forwards. Hold the natural curve in your back and imagine you are sitting down on a bench. Bent down to almost 90 degrees and make small movements up and down. It is very important that the angle in your knees matches the angle in your hip.

### REPEATS

3 sets - 15 repetitions

### FOCUS POINTS

- » Hold your natural curve within the squat position.
- » Control the angle in knee and hip.
- » Keep your knees above your feet.
- » Make small movements up and down.

## ◀ EXERCISE 3 PUSH-UP TO OPENING

Make a straight line from your heels to your shoulders and place your hands slightly wider than your shoulders. Your feet should be a little wider than your hips. Do one push-up and then open up with one arm while holding the natural curve in your lower back. Repeat this movement on the other side.

### REPEATS

3 sets - 8 repetitions

### FOCUS POINTS

- » Hold your natural curve while pushing up.
- » Open your torso without twisting your pelvis.
- » Keep looking at your elbow while opening.

## ◀ EXERCISE 4 BODY PULL-UP

Find a horizontal bar that is hanging at more or less the same height as your hips. Take the bar in your hands and position yourself so that bar is at chest height. Make a straight line from your heels to your shoulders and pull yourself up.

### REPEATS

3 sets - 15 repetitions

### FOCUS POINTS

- » Hold your natural curve while pulling up.
- » Pull up towards your nippleline.
- » Keep a fist-size-distance between the bar and your chest.

## ▲ EXERCISE 5 RUSSIAN TWIST

Sit down on the floor, lift your feet off the ground and make an arrow with your hands while extending your arms. Twist your upper torso so your hands just pass your knees but don't go too far. It's important to keep focussed on your abdominal muscles while performing this exercise.

### REPEATS

3 sets - 20 repetitions

### FOCUS POINTS

- » Hold your natural curve while sitting down.
- » Lift your feet off the ground.
- » Place your hands just next to your knees.

## ▼ EXERCISE 6 PELVIS LIFT

Lay down on the floor with your knees above your pelvis. Place your hands beside your body, not underneath! Push your legs upwards and return slowly. This will be tough in the beginning because you have to lift your legs instead of rolling to create movement.

### REPEATS

3 sets - 20 repetitions

### FOCUS POINTS

- » Keep your hands on the floor, not underneath your body.
- » Place your knees above your pelvis.
- » Push your knees upward.
- » Try not to roll over.

## ▲ EXERCISE 7 HOOVER

This is one of the main exercises to train your core body strength! Lie down on the floor and support your body with your lower arms. Make a straight line from your heels to your shoulders and try to hold that position. Start with 30 seconds and work your way up to one minute.

### REPEATS

3 sets - 30 seconds

### FOCUS POINTS

- » Hold your natural curve while keeping your posture.
- » Place your shoulders further than your elbows to increase the level of difficulty.

## ▼ EXERCISE 8 SHOULDER STABILITY EXERCISE

Stand up straight and slightly bend your knees. Hold up your arms horizontally while making sure your elbows are in front of your shoulders. Now rotate around the axis of your upper arm, and ensure you only move your arms during this exercise.

### REPEATS

3 sets - 10 repetitions

### FOCUS POINTS

- » Hold your natural curve while keeping your posture.
- » Keep your elbows below and in front of your shoulders.
- » Rotate around your upperarm.

You can repeat this workout three times a week.

**Build up slowly, always focus on control and balance.** Don't worry if you can't reach the number of reps straight away, just work hard and it will be possible after a couple of workouts. Make sure not to forget to work on your cardio as well!

## Do you live for Trials?

Once every two months **Trial Magazine** will feed your trials addiction. Do you live, breathe, eat for Trials, we do! Included in each issue are in-depth interviews with the people involved in the sport, International and National Competition reports, Classic, Pre-65, Technical topics, both on the riding and the mechanical side, Exotic rides from around the world and honest comprehensive bike tests — **Trial Magazine** covers it all.

Join the trend and subscribe now!
